

UPDATED COVID POLICY

At Plumb Performing Arts we have and will continue to follow all state and local regulations as well as the recommendations from the CDC.

Therefore, we no longer require masks for all vaccinated adults. We recommend masks for those not vaccinated.

Masks are encouraged but not required for our unvaccinated children under the age of 12. The parents and child will make that decision based on individual comfort level.

If your child has a fever, chills, sore throat, cough, or any other sign of illness we ask that they not come to dance. A negative COVID PCR test will be required for return.

Our guidelines will be updated when and if official guidelines and recommendations change.
